☞ To find the interest of any particular sum for any certain time, multiply the sum by the number of months, take one half of the product, and you will find the two right hand figures to be cents—the remainder, on the left hand, are dollars, which is the answer. If there be cents in the sum, after you have multiplied as above, you will find the two right hand figures to be fractions, the two next cents, and the remainder in dollars.

PRACTICAL AND MENTAL ARITHMETIC, on a new plan, in which **MENTAL** Arithmetic is combined with the use of the Slate—containing a **COMPLETE SYSTEM FOR ALL PRACTICAL PURPOSES**—with Exercises for the Slate; to which is added a **PRACTICAL SYSTEM OF BOOK KEEPING**, by **ROSWELL C. SMITH**, author of a “School Geography,” “Productive Grammar,” &c.

SMITH'S SCHOOL GEOGRAPHY, on the Productive System, accompanied by a large **ATLAS**, which contains **NINE** folio maps from steel plates—with many important improvements, both in plan and arrangement—having, in addition to the maps found in most school atlases, folio maps of the Middle, Southern and Western States—also, a comprehensive **CHART** of the World, exhibiting at one view, the Prevailing Religion, State of Society, Whole Population, Population to a Square Mile, &c. &c.

The work is arranged on a new, but much improved system of instruction, and is equally well adapted to all classes of learners. It commences with ideas, the most simple—and gradually ascends in the scale of knowledge, till the pupil becomes master of the whole subject.

 The book is for sale by S. Green, N. London.

From the Albany Journal.

We have been highly pleased with a hasty glance at this interesting work, just published in Philadelphia,

by W. Marshall & Co. The author has settled upon an excellent plan gradually to lead on the young mind, and its general adoption cannot fail to have a salutary influence. The manner in which the different parts are divided is very happy. The "First Part," designed for the younger class of learners, is extremely simple and interesting. The questions and answers are clear and concise—entirely free of those difficulties so frequently encountered by the tender mind in similar works. In this—one of its best features—it even excels Parley's Geography, excellent, though that work be. Indeed, nothing could be better adapted to the end in view. The second and third parts are equally judiciously arranged, and evince the same practical discrimination and knowledge of what was needed.

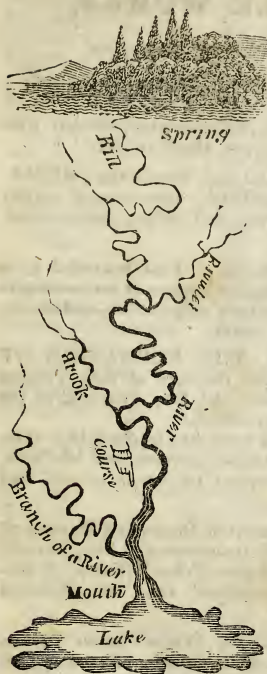

The Atlas also embodies many decided improvements—is admirably executed, and does great credit alike to the author and artist. Teachers who have examined this work, are profuse in their encomiums upon its excellencies, pronouncing it equal in arrangement and perspicuity with the preceding productions of the same author. We doubt not that so soon as this becomes generally known, it will be extensively adopted.

From the Patriot and Democrat.

It combines several important advantages, which are found in no other Atlas now in use, and has been arranged and published at great expense. We hope the author and enterprising publishers while they have the satisfaction of knowing that they have contributed largely towards the improvement of the rising generation, and those who shall succeed them, will at the same time meet with that pecuniary reward which their labors deserve.

On the following page will be found a specimen of the work—being the first page for the learner.

ECLIPSES in the year 1837.

In the year 1837 there will be five Eclipses ; three of the Sun and two of the Moon, in the following order, viz :

1217021

- I. The first will be of the Sun, April 5th, at 2h. 23m. in the morning, invisible.

- II. The second will be of the Moon, April 20th, at 3h. 52m. in the afternoon, invisible.

- III. The third will be of the Sun, May 4th, at 2h. 15m. in the afternoon, to us invisible, by reason of the Moon's high north latitude ; but it will be visible in the Pacific and North Atlantic Oceans, and in the western and northern parts of North America.

- IV. The fourth will be a total visible eclipse of the Moon, October 13th, as follows :

	h	m	
Beginning at	4	43	}
First total immersion in dark shad.	5	44	
Middle of Eclipse	6	30	
Last total immersion in dark shadow	7	16	
End of Eclipse	8	16	

Mean time
in the
afternoon.

Whole duration of Eclipse, 3h. 33m.

At 12 minutes past sunset the Moon will be totally eclipsed, and so continue for 1h. 32m.

- V. The fifth will be of the Sun, October 29th, at 6h. 32m. in the evening, invisible.

The planet Venus will be the Morning Star until the 21st of May, then Evening Star to the end of the year

A TABLE

Showing the difference of High Water at several places from New-London.

The sixth column of each monthly page shows the time of high water at New London, N. York, Elizabeth-town Point, Tarpaulin Cove, Cape Henlopen, Cockspur, in Georgia, and Brunswick, in N. Carolina—to which if you add and subtract as in the annexed table, you will have the time of highwater at the following places. A shows that the annexed quantity of time must be added, S. subtracted—H stands for hours—M for minutes.

☞ To find the interest of any particular sum for any certain time, multiply the sum by the number of months, take one half of the product, and you will find the two right hand figures to be cents—the remainder, on the left hand, are dollars, which is the answer. If there be cents in the sum, after you have multiplied as above, you will find the two right hand figures to be fractions, the two next cents, and the remainder in dollars.

Eclipses in the year 1838.

—1217022

There will be four Eclipses this year, in the following order :

I. The first will be of the Sun, March 25th, at 4h. 57m. in the afternoon, invisible by reason of the Moon's south latitude.

II. The second will be a partial Eclipse of the Moon; April 9th, visible as follows :

	H. M.	
Beginning at	7 46	} Mean time in the evening.
Middle of the Eclipse,	9 11	
End of Eclipse, 10 ⁰⁰	10 39	

Magnitude of the Eclipse 7 digits on the Northern limb,

III. The third will be of the Sun, September 18th, visible and annular, as follows :

	H. M.	
Beginning at	3 20	} Apparent time in the afternoon.
Middle,	4 40	
End of Eclipse,	5 50	

The eclipse will be annular but in a small degree on the meridian of New London. The bright ring on the Sun's southern limb at this place will be very small. At Washington it will be central.

IV. The fourth will be of the Moon, October 3d, at 10h. in the forenoon, invisible.

A TABLE

Showing the difference of High Water at several places from New London.

The sixth column of each monthly page shows the time of high water at New London, New York, Elizabethtown Point, Tarpaulin Cove, Cape Henlopen, Cockspur, in Georgia, and Brunswick, in N. Carolina—to which if you add and subtract as in the annexed table, you will have the time of high water at the following places. A. shows that the annexed quantity of time must be added—S. subtracted—H. stands for hours—M. for minutes.

 To find the interest of any particular sum for any certain time, multiply the sum by the number of months, take one half of the product, and you will find the two right hand figures to be cents—the remainder, on the left hand, are dollars, which is the answer. If there be cents in the sum, after you have multiplied as above, you will find the two right hand figures to be fractions, the two next cents, and the remainder in dollars.

☞ To find the interest of any particular sum for any certain time, multiply the sum by the number of months, take one half of the product, and you will find the two right hand figures to be cents—the remainder, on the left hand, are dollars, which is the answer. If there be cents in the sum, after you have multiplied as above, you will find the two right hand figures to be fractions, the two next cents, and the remainder in dollars.

 To find the interest of any particular sum for any certain time, multiply the sum by the number of months, take one half of the product, and you will find the two right hand figures to be cents—the remainder, on the left hand, are dollars, which is the answer. If there be cents in the sum, after you have multiplied as above, you will find the two right hand figures to be fractions, the two next cents, and the remainder in dollars.

An Act to provide for the Registration of the Names of Electors.

SEC. 1. *BE it enacted by the Senate and House of Representatives in General Assembly convened,* The town clerk and selectmen in the several towns in this State, shall at least ten days before the first Monday in April in each year, make out correct alphabetical lists of all the persons qualified to vote for the several officers to be elected at that time, designating by placing in distinct columns or otherwise, the names of the electors authorised to vote for all said officers, or only a portion of the same, and specifying which officers; and shall at least ten days before said election, cause such list to be posted upon three or more public places in their respective towns.

SEC. 2 The town clerk and selectmen shall be in session at some convenient place for a reasonable time, within four days next preceding the meetings for the objects aforesaid, for the purpose of receiving evidence of the qualifications of persons claiming a right to vote in such elections, and of correcting the list of voters; and such session shall be held for one hour at least on the day of such election, and before the opening of the meeting at the place where said meeting shall be held; and notice of the time and place of holding the said sessions shall be given by the town clerk and selectmen, upon the list posted up as aforesaid. Provided, that whenever an adjourned meeting of the electors shall be held, in pursuance of the law for the choice of one or more representatives of the town in the General Assembly, that on the day of each of such adjourned meetings, there shall be a session of at least one hour previous to the opening of the meeting, of the town clerk and selectmen, for the purposes aforesaid; and such session shall be at the place of holding said meeting.

SEC. 3. If it shall appear to said board that any person whose name is on said list is not a legally qualified elector, it shall be their duty to erase the name of such person from said list; and it shall be the duty of said board to add to said list the name of any person whom they shall find to be a legally qualified elector,

which shall have been omitted in making out the same.

SEC. 4. If any person shall give a false name, or any false answer, to the board of town clerk and selectmen, when in session as provided in this act, he shall forfeit the sum of twenty dollars, to be paid into the State treasury.

SECT. 5. The moderator of any electors' meeting shall receive the votes of all such persons whose names are on the lists of voters as certified by the town clerk and selectmen, and he shall not receive the vote of any person whose name is not on said list; and the name of each elector at the time of voting, shall be checked by the town clerk or one of the selectmen, or by one or more persons appointed by them; and the original list of voters as made out by said board, and the list or lists used on the day of the election, with the marks and checks upon the same, shall be lodged with, and carefully preserved by, the town clerks of the several towns.

SECT. 6. Every legally qualified elector of any town in this State, having resided in the State the time required by law, shall be authorized to vote in any other town in the State for governor, lieutenant governor, secretary, treasurer and comptroller,; and any such elector shall be authorized to vote in any town in the congressional district in which he resides, at any election for a member of congress in said district; and any such elector shall be authorized to vote in any town in the county in which he resides, at any election for sheriff for said county. Provided, if such elector offers his vote in any other town than the one in which he may lawfully vote for representatives he shall produce a certificate from the town clerk of the town in which he shall have been admitted an elector, of such his admission. And said town clerk and selectmen, in addition to the sessions prescribed by this act, shall be in session during the time of voting, for the purpose of registering the names of such legally qualified electors only, as reside in other towns than the one in which they offer to vote; and the certificates required by law to be produced by such electors, shall be placed in the possession of the town clerk, who shall preserve the same.
